Summary

Hard-working Computer Science student that has experience in Source Control, Data Structures & Algorithms, Databases, APIs, and Software Development Life Cycle. I need little handholding to get tasks finished. My productivity is unmatched, and I will bring value to any team that would welcome me. I am motivated, I am hungry, and I am eager to learn.

Languages

- C++ - 4 years
- Python - 4 years
- Java/OOP - 3 years
- Javascript ECMAScript - 3 years

Experience

Software Engineer

AzulaTech

Apr 2022 - Present (11 months)

Creating and Developing Applications with React + Firebase and Django Web Framework

Logistics

Simmons

Oct 2020 - Apr 2022 (1 year 7 months)

Data entry, inventory, production management. I also assumed a leadership role on weekends.

Computer Numerical Control Machinist

Perfekta Aerospace

Jun 2019 - Oct 2020 (1 year 5 months)

Control CNC machines using code, ensuring precise quality of products, and following federal standard operating procedures for aircraft part regulations. Made parts for Cessna, Boeing, and Northrop Grumman.

Robotics

Moly Manufacturing Inc

Aug 2017 - Jan 2019 (1 year 6 months)

Operated robotic arm that assembled parts by process of welding, ensured quality of parts, and machined and engineered parts for robotic arm using engineering software.

Education

Fort Hays State University

Bachelor's, Computer Science
2020 - 2023

Licenses & Certifications

Meta Back-End Developer - Coursera

Verify this certificate at: <https://coursera.org/verify/professional-cert/UVR3Q>

Skills

Full-Stack Development • Data Structures • API Development • Object-Oriented Programming (OOP)
• Mathematics • Amazon Web Services (AWS) • Django REST Framework • React.js • GitHub •
Database Development

Honors & Awards

Deans Honor Roll - Fort Hays State University

Dec 2022
